Advanced Flow Measurement: Next-Level Oil and Gas Industry Training Courses

Ref.: 1_10270 **Date:** 15 - 19 Dec 2025 **Location:** Madrid **Fees:** 5700 **Euro**

Course Overview:

In this intensive course, participants will dive deep into the intricacies of accurate flow measurement within the oil and gas industry. This unique training experience goes beyond traditional oil and gas training courses, offering actionable insights into process piping engineering, pneumatic devices, and advanced flow measurement techniques. Designed for professionals in various disciplines, the course promotes practices that ensure long-lasting skills, surpassing the offerings of other oil and gas online training courses.

Target Audience:

- Facility Operators
- Maintenance Engineers
- Instrumentation Personnel
- Quality Control and Procurement Staff

This course is tailored to address skills gaps in oil and gas accounting training courses and oil and gas safety training certification courses.

Targeted Organizational Departments:

- Operations
- Maintenance
- Quality Control
- Procurement

Targeted Industries:

- Oil and Gas Sector
- Energy Companies
- Petrochemical Companies

This course addresses the specific challenges and regulatory requirements of these industries.

Course Offerings:

By the end of this course, participants will be able to:

- Understand legal and commercial metering requirements in oil and gas.
- Evaluate types and applications of Flowmeters, focusing on custody transfer.
- Master flow measurement proving and calibration techniques.

Training Methodology:

Participants will engage in a blend of theoretical lessons, case studies, group work, and interactive sessions. We incorporate feedback sessions and utilize tools exclusive to our oil and gas industry training courses to facilitate effective learning.
