How This Course is Different from Other Project Training Courses:

Our course uniquely merges the worlds of project management and cost control engineering. Unlike other training courses, we introduce Agile project management principles to conventional project management. This course is enriched with real-life case studies, role plays and interactive sessions, enabling you to better understand the day-to-day roles of project managers, Agile project managers, and cost control engineers. We also provide a comprehensive guide on how to get a certification course, empowering you to take your career to the next level.

WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.
