Mastering Product Management in the Digital Age Training Course

Ref.: 36098_249837 **Date:** 16 - 20 Dec 2024 **Location:** Tokyo **Fees:** 5500 Euro

THE PRODUCT MANAGER Course Overview:

'THE PRODUCT MANAGER', is an immersive corporate training course meticulously crafted for those interested in the realms of product management. This certified product manager course emphasizes key concepts of software product management, digital product management, and AI product management, making it one of the best product manager courses available. Incorporating an exclusive blend of theoretical learning and practical application, it assures product manager training certification upon successful completion. Here, we make you ready for a world that's increasingly driven by products and platforms, catering to both technical and non-technical backgrounds.

Target Audience:

- Current and aspiring product managers
- Business analysts interested in expanding their roles
- Software engineers aiming for a shift towards product management
- Data analysts looking for a broader business perspective
- Project managers seeking to enhance their skillsets
- UX designers wanting to understand product management dynamics

Targeted Organizational Departments:

- Product Development: Better understand the entire product lifecycle
- Marketing: Learn how to plan and execute effective go-to-market strategies
- IT: Gain a deep understanding of software product management and AI product management
- Sales: Understand the product in-depth to improve selling strategies
- Customer Service: Understand the product thoroughly to better resolve customer issues

Targeted Industries:

- Tech and IT: With segments like the best AI product manager course and software product manager course, tech professionals can stay at the cutting edge
- E-Commerce: Learn how to manage digital products effectively
- Finance: Learn to manage financial products and digital transformation in finance
- Healthcare: Handle healthcare products and the sector's unique challenges more effectively

Course Offerings:

- In-depth understanding of product lifecycle management
- Certified product manager training for industry-recognized certification
- Hands-on experience with Agile methodologies
- Techniques to develop customer empathy and integrate user feedback into product development
- Strategies to develop and execute effective go-to-market plans
- Training on data-driven decision making and metrics tracking

Training Methodology:

Our training methodology incorporates a mix of lectures, case studies, interactive group activities, and hands-on sessions. The digital product manager training uses real-life case studies to illustrate the application of theoretical concepts. Peer feedback sessions promote knowledge sharing and help participants gain multiple perspectives. Additionally, the AI product manager course is taught by experienced professionals who bring real-world experiences to the classroom.

Course Toolbox:

- Product roadmap templates for clear product direction
- Feature prioritization techniques for effective backlog management
- User interview guides to help garner valuable user insights
- Introduction to commonly used product management software like Jira, Confluence, Trello
- Detailed guides and templates for AI-related software and tools as part of the AI product manager course
