**What makes this course different from other ISO 9001 Training courses?**

**The structure of the this course includes three major parts:**

The first part is an Introduction. This Part of ISO 9001 Training discusses concepts like "quality" and QMS quality management system. This part surfs the most relevant standards in the ISO 9000 series.

It will also provide a short history of ISO 9001. This part will covers two vital concepts for understanding a QMS. These are quality management system; process approach input Process outcome and risk-based thinking.

The second part of this ISO 9001 internal auditor training is a detailed discussion of all clauses of the standard. This part follows the structure of the standard so it starts by discussing the organizational context. It will also explain the QMS scope. It will discuss leadership and the role top management commitment in the QMS.

Additionally, the second part will discuss the quality policy. It will define roles, responsibilities and authorities in the Process. It will also explain risks and opportunities associated with the subject.

This part then will move to discuss quality objectives and will show plans for their achievement. It will surf the resources needed for the QMS. These resources includes infrastructure, the operation of processes environment, competent people & organizational knowledge.

This part will show the needed to supports the QMS and its control. It will surf the process that the organization must follow for designing and developing its products and services.

This part then will focus on customer communication. It will discuss purchasing and the control of processes.

The Second part also will discusses products and services provided by external providers. It will focus on identification and traceability. It will set up the control measures of goods property of customers and external providers.

This Part will Focus also on the preservation requirements. It will discuss the post delivery activities. And will explain the management of non-conforming outputs.

Finally the second part will conclude with the requirements for monitoring customer satisfaction. It will discuss internal audits of the QMS. It will explain the management review. And the management of non conformities in the QMS or the so called continuous improvement of the management system.

The third and last part of this ISO 9001 2015 lead auditor course is about the general management system auditing. It aims at discussing subjects such as the auditing principles.

It will discuss the different types of management system audits. It will Explain the scope, objectives and criteria of audits. It will help participants in conducting a QMS audit, including the audit plan and the

audit report. It aims to show how non conformities and opportunities for improvement must be managed.

## **Is This Course Part of The Continuous Improvement Training Courses?**

Besides being An ISO 9001 2015 internal auditor course, this course focus deeply on the process improvement. It will discuss practical ways for the continual improvement of business processes.

# WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

## OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

## OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

## WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.
