Mastering Customer Service in the Age of AI: Skills, and Strategies

Ref.: 36064_252712 **Date:** 15 - 19 Jun 2025 **Location:** Manama **Fees:** 3900 **Euro**

Excellence In Customer Service in The Age of Artificial Intelligence

Overview:

In the era of AI, this course is designed to provide comprehensive customer service training. This course emphasizes the importance of excellence in customer service and equips participants with the best customer service skills. It offers a unique blend of traditional customer service strategies and the latest AI technologies. The course is designed to improve the quality of customer service, focusing on important skills for customer service such as listening skills, empathy, and problem-solving. The course also highlights why customer service training is important in today's competitive business environment.

Target Audience:

- Customer service professionals
- Call centre agents
- Sales representatives
- Anyone involved in customer-facing roles

This course addresses the skills gap in providing professional customer service in the age of AI and helps participants to enhance their customer service skills through training.

Targeted Organizational Departments:

- Customer service departments
- Sales departments
- Call centres

This course helps these departments to improve their customer service strategy and provides training on customer service skills.

Targeted Industries:

- Retail
- Hospitality
- Banking

- Telecommunications

These industries, which heavily rely on customer service, would gain the most from this course. It addresses the specific challenges these industries face in providing quality customer service in the age of AI.

Course Offerings:

- Understanding the importance of customer service in the age of AI
- Developing listening skills in customer service
- Enhancing customer service skills through training
- Implementing a successful customer service strategy
- Understanding why customer service training is important

Course Toolbox:

- Comprehensive workbooks on customer service skills training
- Access to AI software for customer service
- Reading materials on quality customer service
- Online resources for professional customer service
- Checklists and templates for implementing a successful customer service strategy

Course Agenda:

- Topic 3: Implementing an AI-Driven Customer Service Strategy: Best Practices
- Topic 4: Case Study: A Successful AI-Driven Customer Service Strategy in Action
- Topic 5: Planning Your Ongoing AI-Driven Customer Service Training Program
- Reflection & Review: Reflecting on why customer service training is important and discussing ways to make it a continuous process.

How This Course is Different from Other Customer Service Courses:

Unlike other customer service courses, this course specifically addresses the challenges and opportunities of providing customer service in the age of AI. It provides a unique blend of traditional customer service skills training and the latest AI technologies. The course emphasizes the importance of listening skills in customer service and provides practical training on these and other important customer service skills. It also highlights why customer service training is important and how it can enhance the quality of customer service.

WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.
