## Course Overview:

The course provides a deep understanding of cloud security, covering key concepts and preparing participants for the ISC2 CCSP Certification. It emphasizes practical application through real-world examples, integrating industry best practices and exploring advanced topics such as virtualization security and cloud security compliance. Learners will be equipped to tackle technical and legal challenges in cloud security.

## Target Audience:

- Cloud Security Professionals
- IT Security Managers
- Aspiring CCSP candidates
- Cloud Computing Specialists
- IT professionals

## Targeted Organizational Departments:

- IT Security and Governance departments
- Risk Management and Compliance teams
- Cloud Infrastructure and Operations teams
- Application Development teams
- Legal and Compliance departments

## Targeted Industries:

- Financial Services
- Healthcare
- Technology and SaaS
- Government agencies
- Retail and E-commerce businesses

## Course Offerings:

By the end of this course, participants will be able to:

- Master the knowledge areas of the six CCSP domains, including cloud architecture security and cloud infrastructure security.
- Apply cloud security best practices in real-world scenarios.
- Conduct complete cloud security risk management assessments.
- Implement cloud security policies, including data encryption and secure cloud deployment models.
- Understand legal compliance cloud security and the governance frameworks required for secure cloud development.
- Prepare confidently for the ISC2 CCSP certification exam.

## Training Methodology:

The course includes interactive sessions, case studies, and group discussions. Participants engage in hands-on activities to apply cloud security best practices and methods. Group work addresses security threats and risk assessments, while case studies showcase security incidents and governance. Feedback sessions guide cloud data security, virtualization security, and security monitoring, enabling participants to confidently apply their knowledge in real-world cloud environments.

## Course Toolbox:

ebooks covering all six CCSP domains, including cloud platform and infrastructure security, cloud data security, and cloud application security.

Case studies on cloud security threats, cloud computing compliance, and secure cloud deployment models.

Online resources for further reading on cloud security best practices, encryption, and cloud security standards.
