

A Training Course On Composite Materials And Processing

10 - 14 Nov 2025
Dubai - Residence Inn by Marriott Sheikh Zayed Road

A Training Course On Composite Materials And Processing

Ref.: 36306_260756 **Date:** 10 - 14 Nov 2025 **Location:** Dubai - Residence Inn by Marriott Sheikh Zayed Road **Fees:** 3700 **Euro**

Course Overview:

This course offers an in-depth exploration of composite materials, covering Fiber-Reinforced Composites, Polymer Matrix Composites, Metal Matrix Composites, and Ceramic Matrix Composites. This course delves into the latest advances in Nanocomposites and provides hands-on experience with Composite Processing Techniques, including Resin Transfer Molding, Autoclave Processing, and the Pultrusion Process. Participants will gain insights into the diverse applications of composites in industries such as aerospace and automotive, focusing on Composite Recycling and Structural Health Monitoring. The course also explores Smart Composites Technology and High-Performance Composite Materials, emphasizing Sustainable Composites and Lightweight Composite Materials. With a focus on Composite Material Properties and Classification, this course equips participants with the skills needed to innovate in the field of composite engineering, addressing current trends and challenges in Composite Material Development and Research.

Target Audience:

- Engineers and technicians in the different industries
- R&D professionals in materials science
- Quality control and production managers
- Individuals aiming to specialize in areas like Nano-Enhanced Composites and Smart Composites Technology

Targeted Organizational Departments:

- R&D and Innovation Departments
- Manufacturing and Production Units
- Quality Control and Assurance
- Engineering and Design Teams
- Sustainability and Environmental Compliance Units

Targeted Industries:

- Plastic and Chemical Industries
- Automotive and Transportation
- Marine and Shipbuilding
- Construction and Infrastructure
- Renewable Energy

Course Offerings:

By the end of this course, participants will be able to:

- Understand the fundamental principles of Composite Materials
- Classify and differentiate between Fiber-Reinforced, Polymer Matrix, Metal Matrix, and Ceramic Matrix Composites
- Apply Composite Processing Techniques in practical scenarios
- Identify and evaluate the properties and applications of Advanced Composites
- Implement sustainable practices in Composite Recycling and Material Selection

Training Methodology:

This course employs a blend of interactive lectures, hands-on workshops, and real-world case studies. Participants will engage in group work to explore the Mechanical Properties of Composites, participate in practical sessions on Composite Fabrication Methods, and receive personalized feedback during Structured Reflection sessions. The course also features industry expert-led sessions on Composite Material Innovations and Sustainable Composites.

Course Toolbox:

- Comprehensive workbooks on Composite Materials
- Reading materials covering the latest research in Composite Material Trends
- Checklists and templates for Composite Processing Techniques

Course Agenda:

Day 1: Introduction to Composite Materials

- **Topic 1:** Definition and Basic Concepts of Composite Materials
- **Topic 2:** Brief History of Composite Materials
- **Topic 3:** Classification of Composite Materials
- **Topic 4:** Advantages of Composites
- **Topic 5:** Disadvantages of Composites
- **Topic 6:** Properties of Composites
- **Reflection & Review:** Discuss the fundamental concepts and the evolution of composites, highlighting their advantages and disadvantages.

Day 2: Fiber and Particulate Composites

- **Topic 1:** Fiber-Reinforced Composites: Types and Applications
- **Topic 2:** Elastic Behavior under Longitudinal and Transverse Loading
- **Topic 3:** Tensile Strength and Mechanical Properties

- **Topic 4:** Discontinuous Fiber-Reinforced Composites
- **Topic 5:** Particulate Composites: Materials and Uses
- **Topic 6:** Applications of Fiber and Particulate Composites
- **Reflection & Review:** Explore the characteristics and mechanical properties of fiber and particulate composites, including case studies on their applications.

Day 3: Matrix Materials and Processing Techniques

- **Topic 1:** Polymer Matrix Materials: Thermosets vs. Thermoplastics
- **Topic 2:** Properties of Polymers in Composite Matrices
- **Topic 3:** Resin Transfer Molding and Hand Lay-Up Process
- **Topic 4:** Autoclave Processing and Advanced Curing Techniques
- **Topic 5:** Filament Winding and Pultrusion Processes
- **Topic 6:** Compression Molding Techniques
- **Reflection & Review:** Review the key processing techniques and the role of matrix materials in defining the properties of composites.

Day 4: Advanced Composites and Nanotechnology

- **Topic 1:** Nano-Reinforcements: Nanofibers, Nanotubes, and Nanoclays
- **Topic 2:** Metal Matrix Composites: Processing and Applications
- **Topic 3:** Ceramic Matrix Composites: Toughening Mechanisms
- **Topic 4:** Smart Composites and Structural Health Monitoring
- **Topic 5:** Environmental Effects on Composites and Recycling
- **Topic 6:** Sustainable Composites and Future Trends
- **Reflection & Review:** Delve into the latest advancements in composite materials, including nanotechnology and sustainable practices.

Day 5: Applications, Testing, and Industry Integration

- **Topic 1:** Applications of Composites in Industries
- **Topic 2:** Testing and Evaluation of Composite Materials
- **Topic 3:** Fatigue, Creep, and Mechanical Properties Analysis
- **Topic 4:** Composite Material Design and Innovation
- **Topic 5:** Integration of Composites in Industrial Applications
- **Topic 6:** Future Directions in Composite Research and Development
- **Reflection & Review:** Summarize the course, emphasizing practical applications, testing methodologies, and future research opportunities in the field of composites.

How This Course is Different from Other Composite Materials Courses:

The course distinguishes itself through a complete curriculum that not only covers traditional composite materials but also dives deep into emerging fields like Nanocomposites and Smart

AGILE LEADERS
Training Center

Composites Technology. Unlike other courses, this program emphasizes practical applications and industry-specific challenges, offering tailored insights into Composite Material Properties and Environmental Effects on Composites. Participants benefit from a blend of theoretical knowledge and hands-on experience, guided by industry experts. The course's focus on sustainability and cutting-edge innovations ensures that participants are equipped to meet the demands of modern composite engineering, making it a unique and invaluable educational experience.

WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.

Gamified and Interactive Training

We understand that training delivery can be challenging, both online and offline. To ensure engagement and achieve learning objectives, we have developed our own activities and collaborated with industry-leading solutions to gamify our training sessions. This approach increases interaction levels and guarantees effective learning outcomes.

Our Training Categories

We cover a wide range of training categories to cater to different needs and interests

- Branding, Marketing, Customer Relations, & Sales Programs
- Finance and Accounting Programs
- Human Resources Management Programs
- Management & Leadership Programs
- Political & Public Relations Programs
- Project Management Programs
- Quality & Process Management
- Self-Development Programs

Join Agile Leaders today and embark on a transformative journey towards becoming a more agile and effective leader. Experience our customer-centric approach, actionable training, and guaranteed return on investment. Let us help you unleash your full potential in the dynamic business landscape.

Where to Find Us

You can join our training programs at our centers located in

We also offer online training sessions through the Zoom platform.
