- Government and Regulatory Bodies

Course Offerings:

By the end of this course, participants will be able to:

- Understand the LEED Rating System and sustainable building strategies.
- Demonstrate comprehensive knowledge of LEED GA certification requirements.
- Apply sustainable site planning and water efficiency practices in green building.
- Analyze energy and atmosphere guidelines and indoor environmental quality metrics.
- Recognize LEED GA certification levels and their value in the green building industry.

Training Methodology:

This course employs an engaging approach to enhance participant involvement and retention. It includes interactive sessions, case studies, and group activities to deepen understanding of the LEED Rating System and sustainable building strategies. Daily quizzes will reinforce key concepts, preparing participants for the LEED GA exam. Real-world examples will clarify green building principles, and end-of-day reflection sessions will help solidify understanding and address any questions.
