The Future of Business A Digital Business Analysis Training Course

Ref.: 36366_27180 **Date:** 18 - 22 Aug 2026 **Location:** Paris **Fees:** 5700 **Euro**

Course Overview

In today's fast-paced digital economy, mastering digital business analysis is essential for organizations striving for innovation and competitive advantage. This course bridges the gap between traditional business analysis and the demands of the digital era. By integrating digital transformation planning with advanced business analysis techniques, participants will explore innovative frameworks like business process optimization, SWOT analysis for digital businesses, and digital capability mapping. This immersive training highlights the critical role of data-driven decision-making, agile business analysis, and strategic business monitoring, empowering professionals to navigate complex business environments. From stakeholder collaboration techniques to technology-driven business solutions, this course equips participants with the skills to lead their organizations into the future.

Target Audience

- Business analysts
- IT professionals transitioning to digital roles
- Project managers focusing on digital transformation planning
- Organizational strategists and decision-makers
- Team leaders enhancing stakeholder engagement strategies

Targeted Organizational Departments

- IT and digital transformation teams
- Strategic planning and business development departments
- Operations management
- Marketing and customer relations teams
- Human resources focusing on change management strategies

Targeted Industries

- Information technology
- Financial services and banking
- Healthcare and pharmaceuticals
- Retail and e-commerce
- Government and public sector

Course Offerings

By the end of the course, participants will:

- Apply digital strategy analysis to real-world scenarios.
- Optimize processes using business process management tools.
- Develop actionable digital transformation planning strategies.
- Master risk analysis and management techniques.
- Implement effective agile vs. waterfall methodologies.
- Design and evaluate solutions using requirement elicitation best practices.

Training Methodology

This course employs interactive and dynamic methods, blending case studies with group discussions to foster the practical application of concepts like business analysis in the digital era. Participants will use role-playing for stakeholder engagement strategies and solve real-world problems through SWOT analysis for digital businesses. Feedback and reflection sessions will ensure participants master strategic business monitoring and adopt a continuous learning in business analysis mindset.

Course Toolbox

- Detailed workbooks on digital capability mapping
- Templates for SWOT analysis for digital businesses
- Pre-designed business model canvas techniques
- A curated library of case studies on innovation in digital businesses

- **Reflection & Review:** Discuss the course's impact on participants' roles and strategies for continuous growth.

How This Course is Different

The course stands out by providing an integrative approach that connects advanced business analysis techniques with the demands of digitalization in business. Unlike traditional courses, this program combines strategic business monitoring with hands-on exercises in business model canvas techniques and digital capability mapping. Real-world case studies and simulations ensure participants gain practical expertise. This course emphasizes not only theory but also actionable skills in data-driven decision-making and agile business analysis, making it a unique, future-focused training experience.

WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.
