## FAQ:

## **What specific qualifications or prerequisites are needed for participants before enrolling in the course?**

Participants should ideally have 3 to 5 years of project-related experience and must have completed 35 hours of formal project management education. Basic knowledge of project concepts is helpful.

## **How long is each day's session, and is there a total number of hours required for the entire course?**

Each session lasts 4 to 5 hours with interactive segments and breaks. The full course covers approximately 25 instructional hours over five days.

## **What's the difference between a scope statement and WBS in project planning?**

The scope statement outlines the high-level deliverables and objectives, while the WBS breaks those deliverables into actionable, measurable work packages for cost and schedule estimation.

## **How This Course is Different from Other PMP Certification Prep Courses:**

Unlike typical PMP prep courses that focus solely on passing the exam, this program bridges theory and practice. It provides real-world scenarios, team simulations, and project templates used by actual professionals. It incorporates PMI's knowledge areas with case-based application, stakeholder engagement strategies, and risk response planning workshops. Participants also gain a structured study plan, mock exams, and expert coaching. This results in deeper comprehension, confident test-taking, and readiness to apply PMP principles in real business contexts.
