# Mastering Customer Service in the Age of AI: Skills, and Strategies

**Ref.:** 36064\_5293 **Date:** 24 - 28 Mar 2026 **Location:** Tokyo **Fees:** 10000 **Euro**

## Course Overview:

In today's competitive business landscape, customer service and sales automation are increasingly interconnected; they collaborate to create seamless and personalized customer experiences. The course on Excellence in Customer Service and Sales Automation in the Age of Artificial Intelligence combines AI-powered customer service techniques with AI-driven sales strategies. Participants will gain the skills needed to excel in both areas.

## Target Audience:

- Customer service professionals
- Sales representatives
- Business development executives
- Call centre agents
- Account managers
- CRM and marketing specialists

## Targeted Organizational Departments:

- Customer service departments
- Sales and business development teams
- Marketing and CRM teams
- Call centres
- Digital transformation and innovation departments

## Targeted Industries:

- Retail
- Hospitality
- Banking and financial services
- Telecommunications
- E-commerce and SaaS
- Technology and professional services

## Course Offerings:

By the end of this course, participants will be able to:

- Leverage AI for lead generation and qualification to automate prospecting
- Utilize AI sales assistants to streamline responses, follow-ups, and customer outreach
- Optimize the entire sales cycle using AI to enhance efficiency at each stage
- Apply customer segmentation tools to deliver hyper-personalized sales and service experiences
- Integrate AI customer service technologies with sales strategies for cohesive customer journeys

## Training Methodology:

This course offers immersive, hands-on training that combines theoretical knowledge with practical AI tool applications. Sessions include expert-led presentations, live demonstrations, and discussions on balancing AI automation with human-centred sales and service.

Participants will engage in:

- Case studies of successful AI-driven customer service and sales strategies
- Group activities simulating AI-assisted lead qualification and customer personalization
- Role-playing exercises for AI-assisted follow-ups and sales conversations
- Feedback sessions to evaluate how AI enhances or limits customer experiences
- Interactive workshops on building AI-enhanced customer service and sales strategies

## Course Toolbox:

- Comprehensive ebooks
- Reading materials and guides
- Online resources for AI tools in customer service and sales automation
- Checklists and templates for implementing AI-driven sales strategies
- Case study library focusing on AI in sales, lead generation, and customer service

## Course Agenda:

- **Topic 2:** Case Studies of AI Failures in Customer Service & Sales
- **Topic 3:** Importance of Human Oversight in AI-Driven Sales
- **Topic 4:** Ethical Use of AI in Sales & Customer Data Management
- **Topic 5:** Best Practices for Responsible AI Use
- **Topic 6:** Building a Framework for AI Governance in Sales & Service
- **Reflection & Review:** Identifying the limits of AI and safeguarding customer trust

## Day 5: Building Your AI-Driven Service & Sales Strategy

- **Topic 1:** Elements of an AI-Powered Sales & Service Strategy
- **Topic 2:** Aligning AI Tools Across Customer Journeys
- **Topic 3:** Best Practices for Continuous AI Optimization
- **Topic 4:** Case Study: Excellence in AI-Driven Sales & Service
- **Topic 5:** Ongoing Training for AI in Customer Service & Sales
- **Topic 6:** Drafting Personalized Action Plans for AI Integration
- **Reflection & Review:** Final review and participant action plans for AI adoption

## FAQ:

- **What specific qualifications or prerequisites are needed for participants before enrolling in the course?**

This course is designed for professionals with experience in sales, customer service, or marketing. No advanced technical knowledge is required; familiarity with customer journeys is recommended.

- **How long is each day's session, and is there a total number of hours required for the entire course?**

Each day includes 4-5 hours of training, totalling approximately 20-25 hours across five days.

- **How does AI support both sales and customer service teams simultaneously?**

AI tools help unify customer data, providing personalized insights that guide both customer service responses and sales strategies. AI ensures the right message reaches the right customer at the right time, optimizing both customer satisfaction and sales performance.

## **How This Course is Different from Other Excellence in Customer Service Courses:**

Excellence in Customer Service and Sales Automation in the Age of Artificial Intelligence is a unique program that integrates practical AI applications for sales and customer service teams. It not only teaches AI concepts but also includes hands-on exercises with tools for lead generation, sales follow-ups, and customer segmentation.

Participants will master to implementation of AI-driven strategies while maintaining human empathy, covering the entire customer and sales lifecycle. This course's focus on sales automation, customer service enhancement, and ethical AI makes it essential for forward-thinking organizations.
