ISO 28000 Certified Supply Chain Security Management Training Course

Ref.: 103600276_53121 **Date:** 12 - 16 May 2026 **Location:** Munich **Fees:** 6500 **Euro**

Course Overview:

The course equips participants with essential knowledge of ISO 28000 standards and supply chain security. It covers the certification process, enabling professionals to effectively implement, audit, and manage supply chain security.

With increasing risks related to theft, cyber threats, and operational disruptions, this course helps participants develop proactive strategies for managing security risks and ensuring compliance with ISO 28000 standards.

Participants will gain practical experience in ISO 28000 lead auditor and implementer methodologies, preparing them for roles such as internal auditor or certified security management professional and strengthening global supply chain security.

Target Audience:

- Supply Chain Managers
- Security & Risk Management Professionals
- Compliance Officers
- Internal & External Auditors
- Business Continuity Managers
- Logistics & Operations Managers
- Procurement & Supply Chain Professionals

Targeted Organizational Departments:

- Supply Chain & Logistics
- Risk Management & Security Compliance
- Business Continuity & Disaster Recovery
- Internal Audit & Quality Assurance
- Compliance & Legal Affairs
- Operations & Strategic Planning

Targeted Industries:

- Logistics & Transportation
- Manufacturing & Distribution
- Retail & E-commerce
- Aerospace & Defense
- Government & Public Sector
- Healthcare & Pharmaceuticals
- Technology & Data Centers

Course Offerings:

By the end of this course, participants will be able to:

- Understand ISO 28000 certification requirements.
- Implement supply chain security standards effectively.
- Conduct ISO 28000 lead auditor certification audits.
- Develop and implement a security management system aligned with ISO 28000 lead implementer course guidelines.
- Identify and mitigate security risk assessment challenges.
- Ensure compliance with supply chain security certification frameworks.
- Improve business continuity and security processes.
- Apply security risk mitigation strategies within organizations.

Training Methodology:

- ISO 28000 modules for flexible learning.
- Group discussions on supply chain security best practices.
- Practical exercises on ISO 28000 accreditation implementation.
- Real-world case studies for supply chain resilience certification insights.

Course Toolbox:

- ISO 28000 Manual & Workbooks
- Security Risk Assessment Templates
- Compliance Checklists & Audit Methods
- Case Studies on Supply Chain Incidents
- Online Resources & Exam Prep Materials
- Security Best Practices Guides
- 2 Certification from Agile Leaders & BECB

- **Topic 6:** Future Developments and Certification Pathways
- **Reflection & Review:** Course Wrap-Up, Q&A, and Feedback Collection

FAQ:

- **What specific qualifications or prerequisites are needed for participants before enrolling in the course?**

Participants do not need prior certification but should have some background in security management, risk assessment, or supply chain operations.

- **How long is each day's session, and is there a total number of hours required for the entire course?**

Each day's session lasts approximately 4-5 hours, with the entire course spanning 20-25 hours over five days.

- **How does ISO 28000 certification benefit professionals?**

ISO 28000 certification enhances career opportunities by validating expertise in supply chain security, risk management, and compliance.

How This Course is Different from Other ISO 28000 Training Courses:

This program takes a complete approach to supply chain security management, unlike standard ISO 28000 training courses. It integrates business continuity strategies, compliance frameworks, and risk mitigation techniques into a five-day interactive learning experience. Participants gain hands-on experience in implementing ISO 28000 and prepare for lead implementer and lead auditor certification exams.

WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.
