- **Topic 3:** Coaching Teams for Strategic Execution
- **Topic 4:** Building Cultures of Strategic Innovation
- **Topic 5:** Driving Digital Transformation in Strategy
- **Topic 6:** Mentoring Future Strategic Leaders
- **Reflection & Review:** Institutionalizing Innovation and Excellence

FAQ:

What specific qualifications or prerequisites are needed for participants before enrolling in the course?

This course is designed for mid-to-senior-level professionals who have experience in leadership, strategic planning, or innovation roles. While there are no strict prerequisites, a foundational understanding of business strategy and leadership principles is beneficial for maximizing learning outcomes.

How long is each day's session, and is there a total number of hours required for the entire course?

Each day's session is generally structured to last around 4-5 hours, with breaks and interactive activities included. The total course duration spans five days, approximately 20-25 hours of instruction.

Is this course more focused on strategic theory or practical business application?

A common question is whether this course leans heavily on theory or real-world practice. The answer is: it's deliberately balanced. While core strategic concepts are introduced (vision, systems thinking, scenario planning), the emphasis is on **practical application** through business simulations, labs, real-world case studies, and leadership challenges drawn from global strategy and innovation models.

How This Course is Different from Other Strategic Leadership and Innovation Courses:

Unlike traditional programs that treat strategy and innovation as separate silos, "Mastering Strategic Thinking, Innovation Leadership, and Management Excellence" integrates them into a unified leadership journey. This course goes beyond just introducing concepts — it guides participants through a hands-on transformation using strategic thinking labs, innovation sprints, and AI-enabled planning tools.

Inspired by real corporate scenarios as outlined in the [PDF File], the course covers how to lead during uncertainty, align vision across teams, and make data-informed decisions in fast-moving markets. What sets this course apart is its executive-level relevance, interactive format, and MENA regional context alignment. Participants won't just learn about tools like Balanced Scorecard, Design Thinking, or Scenario Planning — they'll experience how to apply them in action.

We emphasize that tools are not provided as software, but instead, participants are given frameworks, examples, and guided walkthroughs on how such tools are applied in organizational strategy. Whether it's managing resistance to change or aligning strategy with innovation culture, this course equips leaders to act with clarity, creativity, and confidence — far beyond what theory alone can offer.

WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.
