FAQ:

What specific qualifications or prerequisites are needed for participants before enrolling in the course?

No prior certification is required. However, a basic understanding of IT operations and service management will help participants better grasp ITIL® concepts.

How long is each day's session, and is there a total number of hours required for the entire course?

Each day's session is structured to last 4–5 hours, with breaks and interactive exercises included. The total duration is approximately 25 hours across 5 days.

Will hands-on practice with ServiceDesk Plus and AssetExplorer be available?

While the course includes tool demonstrations, simulations, and walkthroughs, full tool access is not provided. Instead, participants gain actionable insights and examples on using these ITSM tools in real environments.

How This Course is Different from Other ITIL® 4 Courses:

Unlike most generic ITIL® 4 courses, this program uniquely blends certification preparation with practical, tool-driven IT Asset Management and Incident Management training. By incorporating ManageEngine tools like ServiceDesk Plus and AssetExplorer, this course bridges theory with reality. It addresses both Bloom's Level 2 understanding and Level 3 application, enabling participants to immediately apply knowledge on the job. Daily reviews, real-life case studies, and exam simulations enhance retention and confidence. This dual-focus approach ensures you're not only prepared to pass the ITIL® 4 exams, but also to lead compliant, effective, and responsive ITSM practices in your organization.
