**Ref.:** 103600454\_65706 **Date:** 18 - 22 May 2027 **Location:** Milan **Fees:** 5700 **Euro**

## Course Overview

This five-day corporate training course provides participants with the full set of tools and techniques needed to conduct an effective recruitment process audit—from job advertisement to offer letter—covering both **manual** and **AI-driven recruitment systems**. The program integrates HR best practices, governance standards, and emerging technologies to ensure transparency, fairness, and compliance across the entire hiring cycle.

Participants will explore how to evaluate and compare traditional recruitment practices with AI-enabled systems, ensuring ethical data use, unbiased decision-making, and compliance with recruitment governance standards. By the end of the course, they will be able to conduct professional audits that assess efficiency, risk, and performance in both manual and AI-assisted recruitment environments.

## Target Audience

- HR Managers and Talent Acquisition Specialists
- Internal Auditors and Compliance Officers
- HR Governance and Risk Professionals
- Recruitment and Technology Auditors
- HR Policy Analysts and Data Governance Officers

## Targeted Organizational Departments

- Human Resources and Recruitment Departments
- Internal Audit and Risk Management Units
- IT Governance and Data Compliance Departments

## Course Offerings

By the end of this course, participants will be able to:

- Conduct a comprehensive recruitment process audit from end to end.
- Evaluate both manual and AI recruitment systems for accuracy, bias, and compliance.
- Identify and manage recruitment risks related to automation and data processing.
- Audit the transparency of algorithms, data inputs, and candidate evaluation systems.
- Assess recruitment documentation and interview processes in hybrid systems.
- Prepare clear and actionable recruitment audit reports for management and compliance bodies.
- Implement recruitment process improvements aligned with ethical and technological standards.

## Training Methodology

This interactive training uses a mix of theory, applied exercises, and real-life case studies. Participants will audit simulated recruitment systems—both manual and AI-powered—to identify inefficiencies, risks, and compliance gaps.

Learning activities include scenario-based discussions, mock audit sessions, data analysis exercises, and group reviews. The methodology emphasizes hands-on experience in identifying automation risks, auditing HR data governance, and preparing detailed audit findings.

By combining HR audit principles with AI governance and data ethics, participants will gain practical skills to evaluate recruitment systems used in modern organizations.

## Course Toolbox

- Recruitment Process Audit Workbook
- AI Recruitment Risk Assessment Template
- Manual vs. AI Audit Comparison Checklist
- Recruitment Documentation Audit Guide
- Interview Process Evaluation Template
- Recruitment Audit Report Framework
- Recruitment Governance and Compliance Matrix

Note: Physical tools are not provided. Participants receive editable templates, audit checklists, and structured examples for internal use.
