ISO 55001 Lead Implementer: Practical Asset Management Skills

Ref.: 103600487_71027 **Date:** 16 - 20 Nov 2026 **Location:** Dubai - Marriott Hotel Al Jaddaf, Dubai **Fees:** 6500 **Euro**

Course Overview

This comprehensive training program provides participants with the practical skills and structured methodology required to implement, maintain, and continuously improve a management system in alignment with ISO 55001. The course focuses strictly on management system implementation—such as context analysis, leadership responsibilities, planning processes, documented information, internal auditing, corrective actions, and certification preparation.

Participants learn how to interpret ISO 55001 requirements and translate them into actionable implementation tasks, system documentation, and leadership strategies. The program covers system establishment, operational coordination, monitoring & measurement, nonconformity management, and certification audit readiness. Through a combination of structured lectures, guided exercises, implementation templates, and real-world examples, learners gain the confidence to lead, manage, and sustain a fully compliant ISO 55001 management system and successfully prepare for the Lead Implementer certification exam.

Target Audience

- Management system implementers
- Compliance and governance professionals
- Internal auditors
- Quality and documentation officers
- Department supervisors involved in ISO projects
- Consultants supporting ISO implementation
- System coordinators and process owners
- Professionals preparing for ISO 55001 certification

Targeted Organizational Departments

- Governance & Compliance
- Quality Assurance
- Internal Audit
- Operations Administration
- Human Resources
- Risk & Control Departments
- Strategic Planning
- IT Support & Documentation Systems

Targeted Industries

- Government authorities
- Utilities & public services
- Aviation & transport agencies
- Banking & financial services
- Large industrial organizations
- Construction & engineering firms
- Oil & gas corporate offices
- Logistics & infrastructure sectors

Course Offerings

By the end of this course, participants will be able to:

- Interpret and apply ISO 55001 requirements as a management system.
- Develop the system scope, policy, and documented framework.
- Establish governance, communication, and competence requirements.
- Implement ISO 55001 system documentation and control processes.
- Conduct risk-based planning in line with ISO 55001 expectations.
- Plan, execute, and report internal audits.
- Identify, document, and manage nonconformities and corrective actions.
- Conduct management reviews and monitor system performance.
- Prepare an organization for Stage 1 and Stage 2 certification audits.
- Lead a full ISO 55001 implementation project from initiation to certification.

Training Methodology

The training uses a structured, practical approach designed to build real implementation competence. It includes instructor-led explanations of ISO 55001 requirements, guided development of key documents, case-based exercises, group discussions, internal audit simulations, and practical system-building activities. Participants engage in scenario-based learning that mirrors real organizational challenges, allowing them to practice policy creation, documentation control, audit planning, reporting, corrective action management, and certification preparation. Continuous feedback and interactive learning ensure that participants develop a full understanding of how to manage and sustain an ISO 55001-compliant management system.

Course Toolbox

Insights and examples only—not physical tools

- Scope statement examples
- System documentation templates
- Communication & competence planning examples
- Internal audit checklists
- Nonconformity & corrective action templates
- Management review structure samples
- Certification preparation checklist

Course Agenda

Day 1: ISO 55001 Foundation & System Structure

- **Topic 1:** ISO 55001 clauses, structure, and terminology
- **Topic 2:** Understanding organizational context & stakeholders
- **Topic 3:** Establishing the ISO 55001 system scope
- **Topic 4:** Developing the ISO 55001 policy
- **Topic 5:** Documented information requirements & system framework
- **Reflection & Review:** Understanding system foundation and document structure

Day 2: Leadership, Planning & Governance Structure

- **Topic 1:** Leadership commitment, roles, and responsibilities
- **Topic 2:** Planning system objectives and alignment with expectations
- **Topic 3:** Identifying and planning actions for risks & opportunities
- **Topic 4:** Designing procedures and system-level controls
- **Topic 5:** Establishing communication, roles, and competence requirements
- **Reflection & Review:** Linking leadership influence with system governance

Day 3: System Implementation & Operational Coordination

- **Topic 1:** Implementing documented procedures and controls
- **Topic 2:** Managing competence, training, and internal communication
- **Topic 3:** Controlling outsourced processes within the system
- **Topic 4:** Document control & record management techniques
- **Topic 5:** Implementing operational processes for system compliance
- **Reflection & Review:** Challenges and best practices in system rollout

Day 4: Monitoring, Internal Audit & System Evaluation

- **Topic 1:** Monitoring, measuring, and evaluating system performance
- **Topic 2:** Planning and conducting internal audits
- **Topic 3:** Internal audit reporting and follow-up
- **Topic 4:** Conducting management reviews and evaluating system outputs
- **Topic 5:** Identifying & managing nonconformities and corrective actions
- **Reflection & Review:** Audit insights and evaluation improvements

Day 5: Certification Readiness & Continuous Improvement

- **Topic 1:** Certification audit process Stage 1 & Stage 2
- **Topic 2:** Preparing system documentation for certification
- **Topic 3:** Maintaining long-term conformity and system performance
- **Topic 4:** Continual improvement techniques for ISO 55001 systems
- **Topic 5:** Final exam preparation and Lead Implementer readiness
- **Reflection & Review:** Consolidation of key knowledge and next steps

FAQ

What specific qualifications or prerequisites are needed for participants before enrolling in the course?

No formal prerequisites are required. Familiarity with ISO standards or management systems is helpful but not mandatory.

How long is each day's session, and is there a total number of hours required for the entire course?

Each day's session lasts approximately 4-5 hours, totaling 20-25 training hours across five days.

How This Course is Different from Other ISO 55001 Implementation Courses

This ISO 55001 Lead Implementer course focuses on practical system implementation rather than theory alone. Instead of only explaining the standard, it trains participants to translate ISO 55001 requirements into real policies, procedures, and operational controls.

Participants build a complete management system, including scope, documentation, governance structure, and audit readiness, following a step-by-step implementation approach. The course integrates hands-on exercises, internal audit simulations, and corrective action workflows to ensure real capability development.

It also emphasizes leadership involvement, system sustainability, and continuous improvement, helping organizations maintain compliance beyond certification.

By combining structured methodology with real-world application, this course prepares participants to confidently lead ISO 55001 implementation and achieve successful certification outcomes.

WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.
