Course Overview

Instructional Design for Leadership, Soft Skills & Behavior Change is a comprehensive corporate training program designed for organizations seeking to move beyond knowledge-based training toward measurable leadership behavior change. The course equips L&D, HR, and leadership development professionals with advanced capabilities in instructional design for leadership, soft skills instructional design, and behavior change instructional design.

Unlike traditional instructional design programs, this course focuses on behavioral learning design, performance-based instructional design, and learning design for behavior transformation to ensure leadership and soft skills training leads to observable workplace outcomes. Participants learn how to design leadership learning experiences that influence mindset, habits, and decision-making using evidence-based instructional design, human-centered instructional design, and learner-centered leadership training principles.

The course emphasizes instructional design for leadership development, leadership capability development training, and organizational behavior learning design, ensuring alignment with business strategy and workforce development goals. By the end of the program, participants will be able to design leadership and soft skills programs that support learning transfer and behavior change, not just training completion.

FAQ

What specific qualifications or prerequisites are needed for participants before enrolling in the course?

Participants should have basic exposure to training, learning, and development, HR, leadership development, or instructional design. Prior corporate training experience is beneficial but not mandatory.

How long is each day's session, and is there a total number of hours required for the entire course?

Each day's session lasts approximately 4–5 hours. The total course duration is around 20–25 hours across five days.

How is behavior change different from traditional leadership training outcomes?

Behavior change learning design focuses on observable actions, mindset shifts, and sustained workplace behaviors rather than knowledge acquisition alone.

How This Course is Different from Other Instructional Designs for Leadership, Soft Skills & Behavior Change Courses

This course uniquely integrates behavior change instructional design, performance-based instructional design, and learning transfer into leadership and soft skills development. Rather than treating leadership training as content delivery, it equips participants to design learning experiences that drive real organizational behavior change, making it a strategic capability-building program for modern enterprises.
