CCBA® Exam Prep: Competencies & Practice Training

Ref.: 103600522_72228 **Date:** 05 - 09 Oct 2026 **Location:** Dubai - Marriott Hotel Al Jaddaf, Dubai **Fees:** 6500 **Euro**

Course Overview

The Certified CCBA Business Analysis Training: Competencies & Practice is an advanced professional program designed to strengthen applied business analysis capabilities in complex organizational environments. This course focuses on Business Analysis professional training that goes beyond theory, emphasizing CCBA skills development, structured analysis, and practical execution across the full business analysis lifecycle.

Participants will gain hands-on experience in Business Analysis planning and monitoring, Elicitation and collaboration training, and Business Analysis requirements management to ensure effective stakeholder engagement and value-driven decision-making. The program integrates Business Analysis techniques training with real-world scenarios to reinforce Requirements lifecycle management, Business Analysis design definition, and solution evaluation practices aligned with CCBA Business Analysis Competencies.

As a Certified CCBA Business Analysis Training, this course emphasizes measurable Business Analysis competency development and prepares participants to operate confidently in mid-level business analysis roles. The CCBA Business Analysis Course is structured to support professionals responsible for driving business change, improving organizational performance, and delivering solutions that align with strategic objectives. By the end of this CCBA Training Course, participants will demonstrate the practical competencies expected of Certified Business Analysis Training programs designed for real workplace impact.

Target Audience

- Business Analysts and Senior Business Analysts
- Systems Analysts and Functional Analysts
- Product Owners and Product Analysts
- Project Managers and Program Managers
- Business Consultants and Transformation Specialists
- Process Improvement and Change Management Professionals
- Professionals seeking CCBA skills development

Targeted Organizational Departments

- Business Analysis and Enterprise Architecture
- Information Technology and Digital Transformation
- Project Management Office PMO
- Strategy and Corporate Planning
- Operations and Process Improvement
- Product Management and Innovation
- Quality Management and Governance

These departments benefit directly from Business Analysis Competencies Training, Business Analysis requirements management, and structured Elicitation and collaboration training that improves alignment between business needs and delivered solutions.

Targeted Industries

- Information Technology and Software Development
- Banking, Financial Services, and Insurance
- Government and Public Sector Organizations
- Telecommunications and Digital Services
- Healthcare and Life Sciences
- Energy, Utilities, and Infrastructure
- Manufacturing and Supply Chain

These industries face increasing complexity and transformation demands that require strong CCBA Business Analysis Competencies and disciplined requirements practices.

Course Offerings

By the end of this course, participants will be able to:

- Apply Business Analysis planning and monitoring techniques to define structured analysis approaches
- Execute effective Elicitation and collaboration training strategies with diverse stakeholders
- Manage Business Analysis requirements management activities across the requirements lifecycle
- Apply Requirements lifecycle management practices including traceability, prioritization, and change control
- Perform Business Analysis design definition to evaluate solution options and business value
- Apply Business Analysis techniques training to real organizational scenarios
- Demonstrate measurable Business Analysis competency development aligned with CCBA expectations
- Operate confidently within Certified CCBA Business Analysis Training environments

Training Methodology

This Certified Business Analysis Training uses an interactive, practice-oriented methodology designed for professional learning environments. Participants engage in instructor-led sessions supported by structured discussions, real-world case studies, and guided exercises reflecting CCBA Business Analysis Course scenarios. Each topic is reinforced through stakeholder simulations, requirements walkthroughs, and decision-making exercises linked to Business Analysis planning and monitoring and Requirements lifecycle management.

The course emphasizes applied learning through group activities, collaborative problem-solving, and scenario analysis that reflect real Elicitation and collaboration training challenges. Reflection sessions at the end of each day enable participants to consolidate learning, connect Business Analysis techniques training to workplace application, and strengthen CCBA skills development through feedback and discussion.

Course Toolbox

Note: Tools are not provided as software. The course focuses on insights and practical examples of tools commonly used in Business Analysis.

- Structured participant workbook and templates
- Stakeholder analysis and communication examples
- Requirements traceability and prioritization samples
- Governance and approval workflow illustrations
- Strategy analysis and current/future state examples
- Design option evaluation frameworks
- Solution performance measurement examples

All materials support Business Analysis professional training and applied Business Analysis Competencies Training.

Course Agenda

Day 1: Business Analysis Professional Foundations & Planning

- **Topic 1:** Overview of Certified CCBA Business Analysis Training and professional expectations
- **Topic 2:** Business Analysis professional training roles, responsibilities, and competency levels
- **Topic 3:** Business Analysis planning and monitoring approach selection
- **Topic 4:** Planning stakeholder engagement for effective collaboration
- **Topic 5:** Business Analysis governance structures and decision authority
- **Topic 6:** Business Analysis information management and documentation practices
- **Reflection & Review:** Reviewing how planning and governance support CCBA Business Analysis Competencies

Day 2: Elicitation and Collaboration Practices

- **Topic 1:** Preparing for elicitation in complex business environments
- **Topic 2:** Conducting elicitation using Business Analysis techniques training
- **Topic 3:** Confirming and validating elicitation results with stakeholders
- **Topic 4:** Communicating Business Analysis information effectively
- **Topic 5:** Managing stakeholder collaboration and resolving conflicts
- **Topic 6:** Applying elicitation outcomes to Business Analysis requirements management
- **Reflection & Review:** Reflecting on effective Elicitation and collaboration training practices

Day 3: Requirements Life Cycle Management

- **Topic 1:** Introduction to Requirements lifecycle management concepts
- **Topic 2:** Tracing requirements to business needs and solutions
- **Topic 3:** Maintaining and updating requirements throughout the lifecycle
- **Topic 4:** Prioritizing requirements based on business value and risk
- **Topic 5:** Assessing and managing requirements changes
- **Topic 6:** Requirements approval and alignment with governance processes
- **Reflection & Review:** Reviewing how lifecycle management supports Business Analysis competency development

Day 4: Strategy Analysis and Design Definition

- **Topic 1:** Analyzing the current state and organizational context
- **Topic 2:** Defining the future state and desired business outcomes
- **Topic 3:** Assessing business and solution risks
- **Topic 4:** Defining change strategies to support transformation
- **Topic 5:** Business Analysis design definition and requirements architecture
- **Topic 6:** Defining and comparing design options
- **Reflection & Review:** Linking strategy analysis to CCBA skills development

Day 5: Solution Evaluation and Value Optimization

- **Topic 1:** Measuring solution performance using defined indicators
- **Topic 2:** Analyzing performance measures and identifying gaps
- **Topic 3:** Assessing solution limitations and constraints
- **Topic 4:** Assessing enterprise limitations affecting solution value
- **Topic 5:** Recommending actions to increase solution value
- **Topic 6:** Integrated case study applying CCBA Business Analysis Competencies
- **Reflection & Review:** End-to-end review of Certified Business Analysis Training outcomes

FAQ

What specific qualifications or prerequisites are needed for participants before enrolling in the course?

Participants should have prior exposure to business analysis, project environments, or process improvement initiatives. Familiarity with requirements work and stakeholder interaction is recommended for this CCBA Training Course.

How long is each day's session, and is there a total number of hours required for the entire course?

Each day's session is generally structured to last around 4-5 hours, with breaks and interactive activities included. The total course duration spans five days, approximately 21-25 hours of instruction.

Is this course focused on tools or on practical competency development?

The course focuses on Business Analysis competency development rather than software tools. Participants gain insights and examples of commonly used tools while developing applied skills and techniques.

How This Course is Different from Other Certified CCBA Business Analysis Courses

This course emphasizes competencies and practice rather than exam memorization or tool demonstrations. It delivers Business Analysis professional training grounded in real organizational scenarios, focusing on CCBA skills development through applied learning. Participants practice Business Analysis planning and monitoring, Elicitation and collaboration training, and Requirements lifecycle management in realistic contexts.

By integrating Business Analysis techniques training across all knowledge areas and reinforcing Business Analysis design definition and solution evaluation, the course builds professional judgment and workplace readiness. This Certified Business Analysis Training is designed for organizations seeking immediate performance impact and sustainable CCBA Business Analysis Competencies.

WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.
