## Course Objectives

By the end of this program, participants will be able to:

- Analyze procurement functions and redesign them for strategic impact
- Develop measurable procurement KPIs aligned with business objectives
- Apply structured strategic sourcing methodologies
- Conduct spend analysis and category management planning
- Evaluate and manage supplier performance using scorecards
- Apply advanced negotiation techniques with measurable cost reduction outcomes
- Identify and mitigate contractual and supply chain risks
- Implement digital procurement tools and automation strategies
- Build long-term procurement transformation roadmaps

## Training Methodology

This program follows a structured, interactive, and application-driven approach, including:

- Real-world case studies from multiple sectors
- Group workshops and practical simulations
- Procurement process redesign exercises
- Negotiation role-play sessions
- Policy evaluation and governance assessment
- Capstone strategic procurement project

The methodology ensures a balance between conceptual frameworks and real operational application.

## **FAQ:**

## **What specific qualifications or prerequisites are needed for participants before enrolling in the course?**

No formal prerequisites are required. The course is suitable for professionals in procurement, supply chain, logistics, or finance seeking to move into strategic roles.

## **How long is each day's session, and is there a total number of hours required for the entire course?**

Each day runs approximately 4-5 hours. The full 10-day program totals around 40-50 hours.

## **How is Strategic Sourcing different from traditional purchasing?**

Traditional purchasing focuses on transactions and price. Strategic sourcing focuses on long-term value, risk management, spend analysis, and TCO. Practical frameworks are applied through case studies. Tools are illustrated through insights and examples, not physically provided.

## **How This Course is Different from Other Procurement and Supply Chain Courses:**

This course goes beyond basic purchasing by integrating governance, strategic sourcing, SRM, advanced negotiation, digital transformation, sustainability, and supply chain resilience. Participants apply frameworks such as the Kraljic Matrix, Spend Analysis, and TCO through workshops and a final capstone project—transforming them into strategic procurement leaders.
