# About Our COMPANY

## Who Are We

At Agile Leaders, we are more than a training center; we are a collective force of training experts. With two decades of hands-on experience in various aspects of vocational training and development, we've honed our expertise to meet the evolving needs of today's professionals.

## Our Vision

Our aspiration is to be recognized among the world's top-tier training providers, especially for organizations eager to shift their leadership mindset towards more adaptive and responsive business practices. As we progress towards this ambitious goal, we remain steadfast in our commitment to becoming increasingly customer-centric and agile in our approach.

## Our Mission

Our mission is centered on creating impactful, customer-focused agile training courses that are not only actionable but also demonstrate a tangible return on investment. We embrace and embody a set of agile core values that guide everything we do, ensuring that our training initiatives consistently align with the evolving needs and expectations of our clients. By focusing on value addition, practical implementation, and clear results, we are paving the way for a new era of dynamic leadership training.

## Agile Leadership Manifesto

**In the original Agile Manifesto businesses should value:**

- Individuals and interactions over processes and tools.
- Product or service over comprehensive documentation.
- Customer collaboration over contract negotiation.
- Responding to change over following a plan.

**Thus we got inspired to develop our Agile Leadership Manifesto which includes five principles:**

- Transparency.
- Autonomy.
- Empowerment.
- Assessing teams, not individuals.
- Transcendence.

## What Do We Offer

We offer short term training courses. Our courses are agile, bite-sized, actionable, and reflects a real-life return on investment. The return on investment that we promise is within three main categories:

- Enhancing Knowledge.
- Improving Skills.
- Changing Attitudes.

# About Our **COMPANY**

## **Our Core Values**

### **Agility**

Agile business process is our key to agile solutions.

### **Leadership**

Challenging the status quo is only for those who have brave minds.

### **Customer Centricity**

We listen carefully to our customer's stories and we act accordingly.

### **Partnerships**

Win/Win mindset is the key to business success.

### **Diversity**

The universe is our home, and humankind is our community.

### **People orientation**

We are social. We love sharing. People are the core of our business.

### **Change**

If there is one constant thing in this universe, it is continuous change.

### **Trust**

Our best credibility source is our customer's word of mouth.

### **Quality**

Quality is not about following standards but rather improving those standards.

### **Respect**

Respecting each of our core values is the essence of achieving success.

### **Diversity**

The universe is our home, and humankind is our community.

A futuristic 3D visualization of data. The scene is set against a dark blue background with a grid of glowing blue lines. In the center, there are several rectangular blocks of varying heights, some of which are glowing with a bright yellow-orange light. Above these blocks, numerous vertical bars of varying heights extend upwards, also glowing with the same yellow-orange light. The overall effect is that of a complex data structure or a 3D bar chart, rendered in a high-tech, digital style.

## Maintenance Training and Engineering Training Courses

A Training Course On Composite Materials And Processing	534
A Training Course on High Voltage Direct Current Transmission	534
A Training Course on HVDC Power Transmission System: Best Practices For Engineers	534
AMPP Certified Coatings Inspector / CIP Levels 1 & 2 Exam Preparation	535
Electrical inspector Residential Training Course	535
Energy Storage Systems Training Course Best Practices For Engineers	537
Integration of Renewable Energy System (Res): Insights of Future Systems	538
Intelligent Renewable Energy Systems Integrating (AI) and Optimization Algorithms	539
Mastering Grafana Monitoring Tool Training Course	541
Mastering Maintenance Fundamentals Training Course	541
Mastering Preserving, Rehabilitating, Restoring & Reconstructing of Historic Buildings	542
Mastering Preventive and Predictive Maintenance: A Course for Engineers and Managers	544
Mastering Scaffold Use in the Construction Industry Training Course	545
Mastering The Art of Facilities Management Training Course	545
Mastering The Saudi National Electrical Code (SBC 401)	546
Mechanical Vibrations Theory and Application Training Course	548
Optical Assembly Mastery A Step-by-Step Training Course	549
Practical Shutdown and Turnaround Management A Course for Engineers and Managers	551
SolarWinds Server & Application Monitor Administrator Training Course	552
The Advanced Power Systems Management Training Course	552
The Practical Magnetic and Electromechanical Design course	552
The Programmable Logic Controller (PLC) Professional Training Course (10 Days)	554
Total Productive Maintenance Training Course For Supervisors	555
Training Course on Flexible AC Transmission Systems (FACTS): Best Practices For Engineers	556
Water Hammer and Surge Analysis Training Course	557
