

The Comprehensive First Aid Manual Training Course

The Comprehensive First Aid Manual Training Course

The First Aid Manual Training Course Overview:

This comprehensive 'The First Aid Manual Training Course' provides an in-depth understanding of essential first aid practices. Covering everything from Basic Life Support, CPR Training, and AED Use, to Emergency First Aid, this course is tailored for those seeking robust, practical knowledge in handling medical emergencies. Participants will learn critical skills such as Injury Assessment in First Aid, managing Respiratory Emergency First Aid, and effectively responding to Choking incidents in adults, children, and infants. Additionally, the course delves into specialized areas like Stroke and Heart Attack Response, Seizure Management, and First Aid for Heatstroke and Hypothermia. Advanced modules include Mental Health First Aid and First Aid for Major Incidents, ensuring a well-rounded skill set for all attendees. Ideal for workplace readiness, this course also aligns with HSE Approved First Aid Training standards, making it a must-have qualification for professionals across various industries.

Target Audience:

- Safety officers
- Healthcare professionals
- School teachers
- Sports coaches
- Corporate employees
- Facility managers
- Human resources personnel

Targeted Organizational Departments:

- Human Resources
- Health and Safety
- Facility Management
- Educational Departments
- Emergency Response Teams

Targeted Industries:

- Healthcare
- Education
- Construction
- Sports
- Corporate Sectors
- Manufacturing
- Hospitality

Course Offerings:

Participants will acquire skills and knowledge in:

- CPR for adults, children, and infants
- AED operation and training
- Managing shock and severe bleeding
- Treating burns and scalds
- Fracture management
- Handling poisoning and allergic reactions
- Emergency childbirth first aid
- Conducting injury assessments
- Mental health first aid
- First aid for major incidents
- Compliance with HSE approved first aid training

Training Methodology:

This course employs a blend of interactive sessions, practical demonstrations, case studies, and group work. Participants will engage in hands-on practice with AEDs, role-play scenarios for emergency childbirth, and simulations for handling major incidents and mental health crises.

Course Toolbox:

- Online first aid resources
- Case study and scenario-based learning materials
