Employee Experience Measurement and Improvement Essentials

Ref: 103600643_108473 **Date:** 4 – 8 January 2027 **Location:** New York **Fees:** 12000 Euro

Course Overview:

The Employee Experience Measurement and Improvement Training Course provides HR professionals and managers with practical methods for measuring, analysing, and improving employee experience across the full employee lifecycle. Participants will learn how to develop an Employee Experience Strategy, design an Employee Experience Survey, build an Employee Listening Strategy, and use Employee Experience Analytics to identify workplace strengths and experience gaps. The course covers Employee Journey Mapping, Employee Experience Metrics, Employee Feedback Analytics, Employee Sentiment Analysis, benchmarking, dashboards, and improvement planning.

The programme moves beyond annual engagement surveys by examining broader factors such as belonging, purpose, achievement, well-being, inclusion, leadership, recognition, growth, technology, and work-life balance. The Employee Experience Index framework includes belonging, purpose, achievement, happiness, and vigor. Through practical activities, participants will convert workforce feedback into clear priorities and Employee Experience Action Plans. The course supports organizations seeking a structured, data-driven approach to Continuous Employee Listening, Workplace Experience Improvement, and sustainable Employee Experience Management.

Target Audience:

- HR Directors and HR Managers
- Employee Experience Managers
- HR Business Partners
- People Analytics Professionals
- Employee Engagement Specialists
- Organizational Development Professionals
- Talent Management Managers
- Internal Communication Professionals
- Learning and Development Managers
- Department Heads and People Managers

Targeted Organizational Departments:

- Human Resources
- Employee Experience and Engagement
- People Analytics
- Organizational Development
- Talent Management
- Learning and Development
- Internal Communication
- Diversity and Inclusion
- Strategy and Performance
- Digital HR and Transformation

Targeted Industries:

- Banking and financial services
- Healthcare and pharmaceuticals
- Government and public services
- Energy and petrochemicals
- Technology and telecommunications
- Manufacturing and engineering
- Retail and hospitality
- Aviation and logistics
- Education
- Professional services

Course Offerings:

By the end of this course, participants will be able to:

- Distinguish employee experience from engagement and satisfaction.
- Develop an Employee Experience Strategy.
- Map the complete employee lifecycle.
- Identify employee moments that matter.
- Design an Employee Listening Strategy.
- Develop effective employee surveys and pulse surveys.
- Select relevant Employee Experience Metrics.
- Apply Employee Feedback Analytics.
- Interpret Employee Sentiment Analysis.
- Build an Employee Experience Index.
- Apply Employee Experience Benchmarking.
- Design an Employee Experience Dashboard.

Training Methodology:

The course uses short presentations, case studies, group exercises, discussions, and practical workplace scenarios. Participants will review survey questions, analyse employee feedback, develop employee journey maps, identify moments that matter, and select suitable listening channels. Group activities will cover Employee Experience Analytics, dashboard design, sentiment interpretation, experience-gap analysis, and action planning. Design-thinking exercises will help participants understand employee needs and develop practical workplace improvements. Daily feedback and review sessions will allow participants to refine their Employee Experience Strategy, measurement approach, and improvement priorities. The methodology follows a practical cycle of listening, understanding, acting, communicating, and reviewing results.

Course Toolbox:

Participants will receive insights and examples covering:

- Employee Experience Strategy framework
- Employee lifecycle map
- Employee Journey Mapping example
- Employee Listening Strategy framework
- Survey design checklist
- Listening-channel matrix
- Employee Experience Metrics guide
- Employee Experience Index example
- Feedback-analysis structure

- **Reflection & Review:** Developing an employee listening plan

Day 3: Employee Journey Mapping and Analytics

- **Topic 1:** Employee Lifecycle Management
- **Topic 2:** Employee Journey Mapping
- **Topic 3:** Identifying moments that matter
- **Topic 4:** Employee Feedback Analytics
- **Topic 5:** Employee Sentiment Analysis
- **Topic 6:** People Analytics for Employee Experience
- **Reflection & Review:** Analysing employee journey gaps and feedback themes

Day 4: Experience Index, Benchmarking, and Dashboards

- **Topic 1:** Building an Employee Experience Index
- **Topic 2:** Outcome measures and experience drivers
- **Topic 3:** Workforce Experience Analytics segmentation
- **Topic 4:** Employee Experience Benchmarking
- **Topic 5:** Employee Experience Dashboard design
- **Topic 6:** Communicating employee experience findings
- **Reflection & Review:** Creating a practical dashboard structure

Day 5: Employee Experience Improvement and Action Planning

- **Topic 1:** Diagnosing employee experience gaps
- **Topic 2:** Employee Experience Design principles
- **Topic 3:** Prioritizing workplace improvements
- **Topic 4:** Employee Experience Action Planning
- **Topic 5:** The manager's role in Employee Experience Improvement
- **Topic 6:** Sustaining the Employee Experience Program
- **Reflection & Review:** Presenting an employee experience improvement plan

FAQ:

What specific qualifications or prerequisites are needed for participants before enrolling in the course?

No formal qualifications are required. Experience in HR, employee engagement, organizational development, people analytics, internal communication, or people management is helpful.

How long is each day's session, and is there a total number of hours required for the entire course?

Each day's session is generally structured to last around 4–5 hours, with breaks and interactive activities included. The total course duration spans five days, approximately 20–25 hours of instruction.

Is employee experience measurement the same as an annual engagement survey?

No. Engagement surveys measure one part of the workforce experience. Employee Experience Measurement also covers the employee lifecycle, expectations, well-being, inclusion, technology, leadership, development, recognition, and workplace processes.

How This Course is Different from Other Employee Experience Courses:

This course combines Employee Experience Measurement, Employee Journey Mapping, employee listening, analytics, dashboard design, and action planning in one practical programme. Rather than focusing only on engagement surveys, participants learn how to connect employee feedback with lifecycle touchpoints, workforce data, experience drivers, and organizational outcomes. The course also distinguishes employee experience from culture, satisfaction, and engagement. Participants practise converting survey data and employee comments into priorities, dashboards, and Employee Experience Action Plans. The result is a structured approach for listening to employees, identifying experience gaps, implementing improvements, and measuring progress.
