Alibaba Cloud Performance Efficiency Pillar Training Course

Ref: 36209_16136 **Date:** 22 – 26 March 2027 **Location:** Dubai **Fees:** 4500 Euro

Alibaba Cloud Performance Efficiency Pillar Overview:

The "Alibaba Cloud Performance Efficiency Pillar" course is meticulously designed to empower IT professionals with the knowledge and skills to optimize cloud computing performance. This comprehensive training delves into the core principles of cloud performance, focusing on Alibaba Cloud's robust ecosystem, including Elastic Compute Service ECS Optimization, GPU Instances, ECS Bare Metal Instances, and advanced container services like Elastic Container Instance ECI and Alibaba Cloud Kubernetes Service ACK. Participants will explore Alibaba Cloud Storage Solutions, mastering Block Storage Performance, Apsara File Storage NAS, Cloud Paralleled File Storage CPFS, and Object Storage Service OSS. The course also covers Alibaba Cloud Database Services, Cloud Networking Optimization, and essential security practices. Through real-time application monitoring with CloudMonitor and understanding Cloud Service Trade-offs, attendees will learn to navigate the complexities of cloud infrastructure, ensuring high performance and efficiency. This training is not just about technical skills; it's about adopting a strategic approach to cloud performance, making it ideal for professionals aiming for Alibaba Cloud Certification and those seeking to enhance their cloud computing career.

Target Audience:

- Cloud Architects
- DevOps Engineers
- IT Managers
- System Administrators
- Cloud Solutions Designers

Targeted Organizational Departments:

- IT and Systems
- DevOps
- Cloud Solutions and Architecture
- Technical Support and Operations

Targeted Industries:

- Technology and Software Development
- E-commerce and Retail
- Finance and Banking
- Healthcare

Course Offerings:

By the end of this course, participants will be able to:

- Implement ECS and GPU instance optimization for peak performance.
- Deploy and manage containerized applications using ECI and ACK.
- Design and manage high-performance storage solutions with NAS, CPFS, and OSS.
- Optimize cloud networking with VPC, Server Load Balancer, and Global Accelerator.
- Conduct performance testing and real-time monitoring to ensure system efficiency.
- Understand and apply cloud service trade-offs for cost-effective solutions.
- Prepare for Alibaba Cloud Certification with advanced knowledge and skills.

Training Methodology:

The "Alibaba Cloud Performance Efficiency Pillar" course employs a dynamic blend of training methodologies to ensure a deep understanding of cloud performance optimization. Participants will engage in interactive sessions that include case studies of real-world scenarios, group work to foster collaboration and knowledge sharing, and hands-on exercises in a lab environment to apply what they've learned. Feedback sessions will provide valuable insights into progress and areas for improvement. This approach ensures that attendees not only grasp theoretical concepts but also gain practical experience in implementing Alibaba Cloud solutions for performance efficiency, making use of tools like CloudMonitor and exploring the nuances of ECS, ACK, and cloud storage solutions.

Course Toolbox:

- Comprehensive course workbook
- Access to Alibaba Cloud for hands-on labs
- Performance optimization checklists and templates
- Online resources for Alibaba Cloud services and best practices
- Access to a community forum for ongoing support and knowledge exchange

AGILE LEADERS
Training Center

Course Agenda:

Day 1: Introduction to Alibaba Cloud Performance Efficiency

- **Topic 1:** Overview of Cloud Computing Performance Principles
- **Topic 2:** Introduction to Alibaba Cloud and its Performance Efficiency Pillar
- **Topic 3:** Elastic Compute Service ECS Optimization Techniques
- **Topic 4:** Understanding GPU and ECS Bare Metal Instances
- **Reflection & Review:** Discuss the day's learnings and key takeaways on ECS optimization.

Day 2: Container Services and Storage Solutions

- **Topic 1:** Deploying Applications with Elastic Container Instance ECI and ACK
- **Topic 2:** Alibaba Cloud Storage Solutions: NAS, CPFS, and OSS
- **Topic 3:** Performance Optimization for Block Storage
- **Topic 4:** Best Practices for Alibaba Cloud Function Compute
- **Reflection & Review:** Review container services and storage solutions, emphasizing performance.

Day 3: Database Services and Cloud Networking

- **Topic 1:** Optimizing Alibaba Cloud Database Services
- **Topic 2:** Cloud Networking Optimization with VPC and Load Balancers
- **Topic 3:** Enhancing Connectivity with Global Accelerator and Express Connect
- **Topic 4:** Security and Compliance in Cloud Networking
- **Reflection & Review:** Reflect on database and networking optimizations and their impact on performance.

Day 4: Monitoring, Testing, and Trade-offs

- **Topic 1:** Implementing Real-time Application Monitoring with CloudMonitor
- **Topic 2:** Alibaba Cloud Performance Testing Strategies
- **Topic 3:** Understanding Cloud Service Trade-offs for Efficiency
- **Topic 4:** Asynchronous Cache Techniques in Alibaba Cloud
- **Reflection & Review:** Discuss monitoring, testing, and the importance of trade-offs in cloud efficiency.

Day 5: Advanced Topics and Certification Preparation

- **Topic 1:** Advanced Alibaba Cloud Services Workshop
- **Topic 2:** Cloud Computing Skills Development and Career Advancement
- **Topic 3:** Preparation for Alibaba Cloud Professional Certification
- **Topic 4:** Enterprise Cloud Strategy and Performance Analysis
- **Reflection & Review:** Final review and preparation strategies for Alibaba Cloud certification.

How This Course is Different from Other Alibaba Cloud Performance Efficiency Courses:

The "Alibaba Cloud Performance Efficiency Pillar" course stands out by offering a holistic approach to cloud performance, combining technical depth with strategic insights. Unlike other courses, it covers the entire spectrum of Alibaba Cloud's performance optimization capabilities, from ECS and GPU instances to advanced networking and real-time monitoring. This course is designed with a hands-on approach, allowing participants to apply what they learn in real-world scenarios, preparing them for Alibaba Cloud Certification. With a focus on current industry challenges and the latest cloud technologies, this training is essential for professionals looking to advance their careers in cloud computing and organizations aiming to maximize their cloud investments.
