Critical Infrastructure Protection, Facility Security & Crisis Management

Ref: 808_161397 **Date:** 25 – 29 January 2027 **Location:** Lisbon **Fees:** 5700 Euro

Course Overview

This five-day program builds capability to protect critical infrastructure and sensitive facilities, manage security risks, coordinate emergencies, and sustain operations through disruption with Agile Leaders Training Center.

Course Agenda

Day 1: Internal and External Security of Critical and Sensitive Facilities

- Critical Infrastructure Protection and Facility Security Management
- Layered Security Strategies and Defense-in-Depth Principles
- Perimeter Security, Physical Barriers, and Intrusion Prevention
- Access Control Systems, Visitor Management, and Restricted Areas
- CCTV Surveillance, Alarm Systems, and Security Monitoring
- Critical Asset Protection and Classified Information Security
- Reflection: Evaluating facility vulnerabilities and layered security measures

Day 2: Facility Security Planning, Threat Assessment and Risk Management

- Developing Comprehensive Facility Security Plans
- Security Threat Assessment and Risk Identification
- Security Vulnerability Assessment and Risk Prioritization
- Security Readiness Levels and Protective Measures
- Security Governance, Operational Roles, and Responsibilities
- Risk Mitigation Strategies and Security Plan Implementation
- Reflection: Applying security risk assessment and facility protection planning

Day 3: Security Intelligence, Early Warning and Authority Coordination

- Security Information Gathering and Threat Intelligence
- Information Sources, Verification, and Reliability Assessment
- Threat Indicator Analysis and Early Warning Systems
- Secure Information Handling, Classification, and Incident Reporting
- Official Communication Channels and Security Authority Coordination
- Joint Security Operations, Information Sharing, and Unified Command
- Reflection: Analyzing security alerts and coordinating incident information sharing

Day 4: Emergency Preparedness, Crisis Response and Business Continuity

- Emergency Preparedness and Facility Emergency Response Planning
 - Evacuation, Shelter-in-Place, and Emergency Communication Procedures
 - Response to Fires, Security Threats, and Hazardous Incidents
 - Crisis Management Teams, Incident Command, and Decision-Making
 - Business Continuity Management and Critical Operations Recovery
- Emergency Coordination, Crisis Communications, and Resource Mobilization
- Reflection: Reviewing emergency response decisions and business continuity priorities

Day 5: Practical Security Exercises, Crisis Simulations and Performance Evaluation

- Designing Realistic Security and Emergency Response Scenarios
 - Tabletop Exercise: Unauthorized Access and Facility Security Breach
 - Simulation Exercise: Suspicious Activity and Security Authority Coordination
 - Tabletop Exercise: Facility Fire, Evacuation, and Emergency Command
 - Crisis Simulation: Critical Infrastructure Disruption and Business Continuity
- Exercise Performance Evaluation, After-Action Review, and Corrective Actions
- Reflection: Evaluating simulation outcomes and identifying security improvements
