Workplace Ethics and Organisational Objectives Training Course

Ref: 1646_221562 **Date:** 23 – 27 November 2026 **Location:** Kuala Lumpur **Fees:** 5200 Euro

Overview

Workplace Ethics and Organisational Objectives Training Course is a one-week professional programme for managers, supervisors, and employees who must convert stated values into consistent decisions, conduct, accountability, and team practices. Participants build an Ethics-to-Objectives Practice Framework connecting organisational purpose, behavioural expectations, decision tests, role ownership, conflicts, fair process, speak-up routes, response duties, and evidence of implementation. The course supports practical integrity culture but does not provide jurisdiction-specific legal advice or guarantee organisational performance. Agile Leaders Training Center develops ethical judgement through cases, dialogue, and accountable action planning.

Who Should Attend

- Managers and supervisors responsible for team conduct and decisions
- Professionals working across functions with competing obligations
- HR, governance, risk, ethics, and compliance support staff
- Project and operations leads managing resources and stakeholders
- Employees expected to raise concerns or respond to ethical issues

Learning Objectives

- Translate organisational purpose and values into observable behaviour
- Frame ethical decisions using stakeholders, duties, evidence, risk, and consistency
- Clarify accountability, delegation, ownership, and escalation
- Identify conflicts of interest and apply fair process
- Shape team norms through leadership signals and routine management practice
- Use safe speak-up and response principles without promising confidentiality outcomes
- Connect integrity actions with organisational objectives and monitoring

FAQs

Is this a legal or regulatory compliance course?

No. It develops general ethical judgement and workplace practice and does not replace legal advice, internal policy, investigation procedure, or jurisdiction-specific training.

Does positive work ethics mean maintaining a positive attitude?

No. The course focuses on integrity, accountability, fair conduct, and speaking up; it does not use positivity to suppress concerns or excuse weak controls.

Will participants investigate misconduct?

No. They learn to recognise issues, document appropriately, receive concerns, preserve fair process, and refer matters through authorised routes.

Can the course guarantee better organisational results?

No. Participants learn to connect ethical practices with objectives and indicators, but outcomes depend on leadership, systems, controls, and sustained implementation.

What is the final output?

Each participant produces an Ethics-to-Objectives Practice Framework with behaviours, decisions, owners, escalation routes, controls, and review measures.
