Strategic Direction for Major Incidents and Emergencies Course

Ref: 672_223890 **Date:** 14 – 18 June 2027 **Location:** Addis Ababa **Fees:** 4500 Euro

Overview

Strategic Direction for Major Incidents and Emergencies Course is a one-week practitioner course for senior managers, crisis leaders, emergency planners, incident coordinators, continuity professionals, and executives who leave with a Strategic Incident and Emergency Direction Pack. Participants set escalation thresholds, establish executive command interfaces, interpret strategic situation information, direct priorities and resources, coordinate stakeholders, govern recovery transition, and capture lessons. The course remains above tactical incident command. Agile Leaders Training Center presents strategic incident and emergency direction as executive governance practice.

Who Should Attend

- Senior leaders responsible for strategic direction during major disruption
- Professionals responsible for crisis governance and executive decision support
- Teams coordinating incident, emergency, continuity, and recovery interfaces
- Leaders responsible for priority setting and resource direction
- Executives accountable for recovery transition and lessons governance

The course assumes participants already support senior operational or crisis decisions and leaves out tactical incident command, field operations, emergency procedures, and message-writing practice.

Departments and Industries

The course supports departments and industries requiring executive direction across complex incidents and emergencies.

- Crisis management, emergency planning, and business continuity
- Government services, healthcare, education, and public infrastructure
- Energy, utilities, transport, logistics, and construction
- Banking, insurance, telecommunications, and technology
- Manufacturing, retail, hospitality, and professional services

Learning Objectives

By the end of this course, participants will be able to:

- Analyze incident conditions against strategic escalation thresholds
- Build executive crisis governance and command-interface arrangements
- Prioritize policy objectives, critical outcomes, and constrained resources
- Use strategic situational awareness to support traceable decisions
- Evaluate coordination, recovery-transition, and consequence tradeoffs
- Develop lessons governance actions for strengthened readiness

Course Agenda

Day 1: Strategic Escalation and Governance

- Strategic Incident Escalation Threshold Matrix
- Executive Crisis Governance Mandate
- Strategic Command Interface Map
- Decision Authority and Delegation Record
- Major Incident Consequence Profile

Day 2: Situation Assessment and Priorities

- Strategic Situational Awareness Framework
- Incident Assumption and Evidence Log
- Objectives and Priority Decision Record
- Critical Outcome Protection Matrix
- Decision Uncertainty and Dilemma Review

Day 3: Resources and Coordination

- Strategic Resource Direction Log
- Cross-Functional Coordination Map
- Multi-Organization Dependency Register
- Stakeholder Coordination Responsibility Matrix
- Policy Constraint and Exception Record

Day 4: Recovery Transition and Lessons

- Response-to-Recovery Transition Gate
- Recovery Leadership Handover Checklist
- Residual Consequence Assessment
- Strategic Decision Review Timeline
- Lessons Governance and Action Register

Day 5: Strategic Direction Practice

- Exercise: Apply Incident Escalation Thresholds
- Exercise: Set Strategic Objectives and Priorities
- Exercise: Direct Resources and Coordination
- Exercise: Govern the Recovery Transition
- Capstone: Strategic Incident and Emergency Direction Pack

Practical Exercises

The course uses a developing major-incident case so participants can practise strategic incident and emergency direction without assuming tactical field command.

- Suggested activity: assess consequences and apply escalation thresholds to activate an executive governance structure.
- Suggested activity: interpret incomplete situation information and record strategic objectives, priorities, assumptions, and decisions.
- Suggested activity: direct constrained resources and coordinate dependencies across functions and organizations.
- Suggested activity: approve recovery-transition conditions and assemble the Strategic Incident and Emergency Direction Pack.

FAQs

Who suits strategic incident and emergency direction training?

Senior managers, crisis leaders, emergency planners, incident coordinators, continuity professionals, and executives suit the course when they already support strategic or operational decisions.

How does strategic incident direction differ from tactical incident command?

Strategic direction sets governance, policy objectives, priorities, resource direction, coordination expectations, and recovery conditions. Tactical incident command directs on-scene operations and task execution.

When should a major incident be escalated to executive crisis governance?

Escalation should occur when defined thresholds show consequences, uncertainty, cross-functional impact, resource conflict, stakeholder exposure, policy implications, or recovery complexity beyond routine incident authority.

AGILE LEADERS
Training Center

What should strategic situational awareness contain during an emergency?

Strategic situational awareness should contain verified facts, assumptions, consequences, critical dependencies, response capacity, resource constraints, stakeholder impacts, decision deadlines, and credible outlooks.

What is included in the Strategic Incident and Emergency Direction Pack?

The pack includes escalation thresholds, a governance mandate, command interfaces, situation assessment, objectives and priorities, resource direction, coordination dependencies, recovery-transition gates, decision reviews, and lessons actions.

Conclusion

Participants leave with a Strategic Incident and Emergency Direction Pack connecting escalation, executive governance, situational awareness, priorities, resources, coordination, recovery transition, and lessons governance. The pack creates a traceable basis for senior decisions across a developing incident. It separates executive direction from tactical command while maintaining operational alignment.
