Applications of Artificial Intelligence in Public Relations Training Course

Ref: 36021_224800 **Date:** 2 – 6 November 2026 **Location:** Addis Ababa **Fees:** 4500 Euro

Overview:

The "Applications of Artificial Intelligence in Public Relations Certification Course" by Agile Leaders Training Centre offers a comprehensive view of the synergy between Artificial Intelligence AI and Public Relations PR. The course unravels the definition of Public Relations and what it means to be a Public Relations Manager or Officer in the age of AI. It aims to deepen understanding about AI, including its applications in business, the best practices and the potential future of AI in the PR landscape. The course leverages examples of AI to demonstrate its transformative impact on organizational and office politics, as well as public relations in general.

Target Audience:

- Public Relations Managers
- Public Relations Officers
- PR Professionals seeking to understand AI applications
- AI enthusiasts keen on exploring its impact on Public Relations

Targeted Organizational Departments:

- Public Relations
- Corporate Communications
- Marketing and Branding
- Strategic Planning

Targeted Industries:

- Technology
- Public Relations Firms
- Marketing Agencies
- Large corporations with in-house PR teams

Course Offerings:

Upon completion of this best artificial intelligence course, participants will:

- Understand the fundamental principles of Public Relations and Artificial Intelligence
- Comprehend the roles and responsibilities of a Public Relations Manager and Officer in an AI-driven business environment
- Apply AI tools for effective management of office politics
- Recognize the future trends of Artificial Intelligence and its impact on PR

Training Methodology:

The training course blends lectures with practical sessions, providing an immersive learning experience. It includes interactive sessions with AI tools, group work on real-world AI business scenarios, case studies of AI application in PR, and feedback sessions for continuous improvement.
