Writing A Business Plan Like A Master Training Course

Ref: 36054_90002 **Date:** 21 – 25 November 2027 **Location:** Bangkok **Fees:** 6000 Euro

Writing A Business Plan

Overview:

'Writing A Business Plan' is an interactive strategic planning training that dives into the essence of constructing a robust business plan. The course integrates strategic planning management and requirement management planning to teach how to develop an effective and realistic plan. This strategic planning course will enable participants to master planning budgeting and forecasting, enhancing their strategic planning skills. The course also underlines the significance of marketing strategy planning and how it interplays with the overall business planning and budgeting. Attendees will learn the difference between planning vs scheduling, and the importance of both in the context of strategic planning and execution. By the end of the course, participants will understand strategic planning development, how to perform effective planning and goal setting, and the role of planning and organizing in a comprehensive business plan.

Target Audience:

- Entrepreneurs and Small Business Owners
- Strategic Planners
- Business Consultants
- Management Professionals
- Financial Planners

Targeted Organizational Departments:

- Management: Enhance strategic planning management and decision-making capabilities.
- Marketing: Improve marketing strategy planning and execution.
- Finance: Improve skills in planning, budgeting, and forecasting.
- Operations: Enhance strategic planning skills for smoother business operations.

Targeted Industries:

- Tech startups: Effective planning and goal setting is critical in this fast-paced industry.
- Financial Services: Planning, budgeting, and forecasting is a crucial part of this industry.
- Manufacturing: Planning and organizing are key to efficiency in this sector.
- Retail: Business planning and budgeting can significantly impact retail margins and profits.
